HAIR CARE

COLORIL Company

The production of color charts for color hair has always been the main activity of COLORIL srl. In 1982, the French parent company decided to open a branch in Italy with the specific intent to be as close as possible to customers spread over the territory, relating directly with them in order to develop and manufacture a product which meets the needs of our market. Since 1983, we produce for major brands of cosmetics, hair dye color chart. Our experience allows us to realize the full catalog: from the prototype, according to customer requirements, the sampling of nuance, printing and die cutting. Our color charts may contain strands to "drop" and / or "brush" (over 4cm wide and up to 30cm long and the number of wires can be even higher in 5000). The constant quest for innovation has led us to create multicolored effects on the same strand (up to 7 colors in a single strand), streaks of color or effects "contrast". Also we can offer various types of locks detachable. Each strand is controtipata in the desired color, free of charge, to customer approval. The service

also includes the delivery quantity in installments, according to the needs, over several months. Extra attention to help our customers.
